

Adoption Assistance Request

The Amram Musungu family in Salt Lake is seeking your financial assistance with the adoption fees and other essentials for five children from Kenya East Africa.

My older brother Bernard K. Musungu was murdered in the City of Nairobi Kenya in 2010. He left behind five young children. He was the bread winner for the family and the only means of support. After his death, the family was left with no financial support.

My wife and I have been supporting the children financially every month since the death of their father. We have started the adoption process in Kenya to get them into our family in Salt Lake City, Utah but the whole process requires additional money to complete. Adopting these kids into our family will make it easier for us to provide for them here in the United States.

There are 5 children – three boys and two girls. You can see them in the photograph a long with my dear mother who is doing her best at her old age to look after them. **Your donation will bless these children and our family.**

Your contribution is highly appreciated. A charitable account is established at America First Credit Union (AFCU) – the **Amram Musungu Charitable Account**. (Acct. # 9077827) Donations can be made through the following methods:
